

World Vision FAIRTRADE Organic Jasper Coffee Fundraiser Parent Order Form

World Vision and Jasper Coffee proudly bring you an exquisite Fairtrade and Organic Certified coffee from Ethiopia.

World Vision has worked in the Yirgacheffe region of Ethiopia for many years to help improve agricultural skills and assist growers to access sustainable markets through Fairtrade.

Fairtrade is a trading partnership that guarantees fair prices for farmers in poor countries. Fairtrade gives rights to the world's poorest farmers and helps to improve living conditions for their families and communities.

Yirgacheffe is considered one of the finest coffee growing areas in the world. The beans are grown in a natural forest, rather than a plantation, so this coffee is classified as Shade Grown as well as Australian Certified Organic. Flourishing amongst other indigenous trees, the coffee bushes help to provide a bio-diverse habitat for native flora and fauna and to preserve the forest ecosystem.

By buying World Vision's Fairtrade Organic Jasper Coffee, you will be helping to preserve the natural environment in one of the last old growth indigenous forest areas in Ethiopia.

And as you enjoy the coffee's rich, exquisite taste, you are also helping to change the lives of growers and their families in the Yirgacheffe region. Already, as a result of Fairtrade, three new primary schools have been built and a cereal grinding machine has been installed so farmers no longer have to pay exorbitant prices to mill their grain.

A portion of the sale price will also help support World Vision's community development work in other parts of the world.

World Vision Jasper Coffee Flavour Profile: Pronounced honey almond tastes, a rich smooth clean body, with luscious chocolate hints.

World Vision FAIRTRADE Organic Jasper Coffee Fundraiser

Student Name:	Grade:	Teacher:
