

PNG AID BUDGET (p. 22-23)

Imagine you are an Australian NGO aid team that has consulted with a wide range of people in PNG. Using the information you have learnt about PNG, allocate your \$2 million budget to the sectors you think will most empower the people of PNG and develop their communities. Explain how you would spend your budget in each sector and justify your decisions.

Sector	A\$ budget	Explanation
Education (e.g. train teachers, encourage girls to attend school, job skill training)		
Health (train nurses and doctors, teach hygiene and nutrition, immunise children, HIV and AIDS education)		
Infrastructure (e.g. build roads, bridges, schools, health centres, ports, water pumps)		
Governance (e.g. provide expert training in courts, police, and government administration)		
Agriculture (e.g. research sweet potato, coffee and cocoa production, work with farmers on improved methods)
