

## Hey there amazing educator!

We've developed a small series of sessions you can run with your students in class or self-directed via Zoom/Webex if in lockdown.

There are 3 resource packs in total, with each one running around 50-60mins.

We value your preparation time, so we've kept that in mind. We hope you can sit back and relax with a cuppa whilst you 'prepare' for this session, letting PowerPoint do all the hard work. 😊

### The purpose...

- Generate a deeper awareness of the issues behind food insecurity including conflict, climate change, global food prices and COVID-19.
- Empower students to have a voice for the hungry and realise that they can make a difference to children and communities at risk of famine by participating in the 2021 40 Hour Famine challenge.

### Things to know...

- There are two files per session. One PowerPoint presentation (20-21 slides) and one PDF (3-4 worksheets).
- Presentation notes have been included to assist with background information to expand the discussion on some slides. It is recommended that you right click at the beginning of the session and select 'Show Presenter View', to see accompanying notes.
- Prompting slides will indicate when to switch your student's attention to their worksheet.
- Videos are embedded within PowerPoint. You may need to tick 'enable external content' if prompted. To troubleshoot video access, a secondary link option can be found at the base of the slide (taking you to the video on YouTube).
- This resource has been prepared to broadly feature some Australian Curriculum level 5/6 Capabilities (Critical and Creative Thinking, Intercultural Understanding).
- Many activities have been inspired by Ron Ritchhart's Thinking Routines to encourage a thinking culture of connection, retention and application of understanding.
