

## Indonesia: urban water issues (p. 20-21)

### Photo analysis

With a partner, pick a photo from pages 20-21 of *Get Connected: Water in the world* to examine in more detail, and complete the following questions.

Photo selected: \_\_\_\_\_

1. Look at the photo closely, and make some dot points about what you see:

Describe the types of objects, people and/or animals in the photo.	Describe the features of the built (man-made) environment shown in the photo.
Describe the features of the natural environment shown in the photo.	Describe any activities you see in the photo, or evidence of previous activity.

## Indonesia: urban water issues (p. 20-21)

### Photo analysis

2. What do you think is the main water issue shown in this photo? How might this issue affect the wellbeing of people living in Jakarta? Brainstorm some ideas.

3. What do you wonder about the people and place shown in this photo? Write down all the questions you have about this photo.

4. Swap your observations with another pair. Look at what they have written, and add your own thoughts about the photo they looked at to their photo analysis page.

Hand back their page, and read what they noticed and wondered about the photo you picked.
